WESTERN SLEEP MEDICINE, LLC

Mark Schultz, RPSGT
Dr. Gerald Amundsen

Central Scheduling: 416 Valley View Drive, Suite 400, Scottsbluff, Nebraska 69361 (307)-426-4012 or (308)-633-3000 (308)-633-3001 fax

Serving Memorial Health Center – 645 Osage Street, Sidney, Nebraska 69162

Hello!

We are looking forward to meeting you and performing your sleep study! Enclosed you will find a questionnaire, sleep diary and general instructions. We need you to bring this questionnaire and sleep diary with you the night of your sleep study at our sleep lab located at Memorial Health Center in Sidney. Please complete the medications list and bed partner questionnaire if applicable.

On the day of your study please refrain from taking a nap and do try your best to limit your caffeine intake. Also, please shower and wash your hair before coming. We will be placing six small sensors on your scalp and this helps us get the best readings possible.

If you have any questions please call Central Scheduling Monday through Friday between the hours of 9:00 am to 4:00 pm. Our office telephone is (308)-633-3000. Pam or Mark will be happy to answer any questions you may have.

Thank you again for choosing Western Sleep Medicine in Sidney.
We look forward to serving You!

Western Sleep Medicine is staffed by Registered Polysomnographers, Registered Nurses, and a Registered Respiratory Therapist.

SLEEP STUDY INSTRUCTIONS

PATIENT NAME: _____

Your nighttime sleep study is scheduled for: _____

It is very important for you to read the following information and complete the questionnaires before coming to the Sleep Lab

.

THINGS TO REMEMBER

- Day of study, **do not** take a nap, try to keep busy.
- Day of study, please limit your caffeine intake, also **no** consumption of caffeine products after 12 noon (coffee, sodas and chocolate).
- Arrive at the Sleep Lab at Memorial Health Center, **645 Osage** St**,** Sidney, NE at _____ p.m. Please park and come in through Emergency Room admitting.
- Please shower, wash your hair and refrain from using any hair care products. If you normally shave then please do so the day of your test.
- Please be aware that during your study you will not be allowed to have the following with you in your room; pagers, personal phones or watches as they interfere with the test results. If a phone or pager must be brought in with you, then the technician in charge of your testing will be more than happy to keep it in the observation room in case of emergencies.

PLEASE BRING WITH YOU

- **Toiletry items**: Combs/hair brush, toothbrush/toothpaste.
- **Clothes**: Loose fitting nightclothes and a change of clothes for the next day.
- **Medications**: Any medication that is prescribed by your doctor, or over the counter medications you are currently taking and a current list of your medications.

******No Medication will be administered by our Staff******

- **Diabetic Supplies:** Please bring your glucometer and supplies.
- **Reading Material**: Something to help relax in your room before your test.
- **Questionnaire:** Please bring the completed questionnaire previously sent to you.

If you become sick or cannot make your scheduled appointment, please call Pam @ Central Scheduling in Scottsbluff (308) 633-3000
Before 1:00 p.m

Revised 6-01-10

PATIENT SLEEP STUDY INFORMATION

What is a Polysomnogram?

A Polysomnogram is a procedure that reads and registers body functions during sleep. Some of these measurements include:

- **Brain waves** [Electrodes placed on patient's scalp]
- **Heart beats**
- **Eye Movements** [Electrodes placed by the patient's eyes]
- **Leg movements** [Electrodes placed on the patient's legs]
- **Airflow Breathing** [Sensor placed under the patient's nose]
- **Chest/Abdominal Breathing** [Sensors placed on the patient's chest and abdomen]
- **Blood Oxygen Levels** [Sensor attached to the patient's finger]

Why Record This Information?

During sleep, the body functions differently than while awake. Recording these readings will help the doctors better diagnose and treat your sleep problem.

How Can I Sleep With All Of These Things On Me?

Surprisingly, most people sleep reasonably well. The sensors are applied so that you can turn and move during sleep. Our staff will try to make your environment as comfortable as possible.

Will The Sensor Devices Hurt?

No. Although sometimes in rubbing the skin or putting on the electrodes there will be mild and temporary discomfort and skin irritations.

Will I Be Given A Drug To Help Me Sleep?

No, unless these have been prescribed by your doctor. ***PLEASE, DO NOT STOP ANY OF YOUR MEDICATIONS WITHOUT FIRST CONSULTING YOUR PERSONAL PHYSICIAN!***

What Should I Bring?

Your own pillow, bed clothes [Preferably two piece pajamas or gym shorts and T-shirt], and a book of something to work on while waiting. **Bring Your Prescribed Medications!**

What Happens To The Polysomnogram?

Sleep studies are reviewed the following day by Mark Schultz, RPSGT and forwarded to Dr. Norman Imes, Clinical Professor of Medicine at OU Health Sciences Center and a Diplomate of the American Board of Internal Medicine, Sleep Medicine. Dr. Imes is licensed in Nebraska and recognized nationally as an expert in the field of sleep medicine. Generally results will be returned to your physician within 3 days of the date of your study. Your primary care physician will contact you for a follow up visit to review your results.

INSTRUCTIONS FOR COMPLETING QUESTIONNAIRES

While an extensive sleep history will be taken by the Sleep Technician the night of your study, answering these questionnaires will aid in the diagnostic process. Enclosed are the following questionnaires: **PLEASE USE BLUE OR BLACK INK**

1. MEDICATIONS LIST
   - It is IMPORTANT that you provide the Sleep Technician with a complete list of your current medications with the dosage and daily intake clearly stated.
2. SLEEP LOG/SLEEP HISTORY
   - Please begin this as soon as you receive the questionnaire packet.
3. QUESTIONS ABOUT YOUR SLEEP AND WAKE BEHAVIOR
   - please be as thorough as possible
4. BED PARTNER QUESTIONNAIRES
   - If you have a bed partner who has recently observed your sleep please have them complete this questionnaire.
5. EPWORTH SLEEPINESS SCALE
   - This is a standard medical assessment that is scored by the registered sleep technologist and aids in your diagnosis.

PLEASE BRING THESE COMPLETED QUESTIONNAIRES WITH YOU TO THE SLEEP LAB FOR EVALUATION
_____THE NIGHT OF YOUR STUDY_____

Revised 6-01-10

PT ID #: _____

EPWORTH SLEEPINESS SCALE

NAME: _____

DATE: _____ AGE: _____

GENDER: (circle one) MALE FEMALE

How likely are you to doze off or fall asleep in the following situations, in contrast to feeling just tired? This refers to your usual way of life in recent times. Even if you have not done some of these things recently, try to work out how they would have affected you. Use the following scale to choose the most appropriate number for each situation.

0- would never doze off
1- slight chance of dozing
2- moderate chance of dozing
3- high chance of dozing

SITUATION	CHANCE OF DOZING			
Sitting and reading	0	1	2	3
Watching TV	0	1	2	3
Sitting, inactive in a public place (e.g., a theater or a meeting)	0	1	2	3
As a passenger in a car for an hour Without a break	0	1	2	3
Lying down to rest in the afternoon When permitted	0	1	2	3
Sitting and talking to someone	0	1	2	3
Sitting quietly after a lunch with no alcohol	0	1	2	3
In a car, while stopped for a few minutes in traffic	0	1	2	3

TOTAL SCORE: _____ AVG. AMOUNT(HOURS) OF SLEEP PER NIGHT _____
